

Practical Architectural Construction (PAC) Application
Course 06191/06192
2017-2018

Course Description	This course provides actual on-site work experience. Students have the opportunity to work with the tools of carpentry and related trades while building a single-family residence on a chosen job site within the district. This course is part of the District 214 dual credit program. Upon successful completion of the first year of the course, and the submission of a Harper College application, students will receive Harper College MNT 115 credit. Upon successful completion of the second year of the course, and the submission of a Harper College application, students will receive Harper College MNT 215 credit.
