

Helping Your Child Be Successful In School

Questions and Answers

You can also ask these questions to your child's school.

How can I communicate with the school?

We encourage open communication between parents and staff to support your child's success. Visit www.d214.org, go to About D214, and select Staff Directory under Administration to find contact information. Translation services are available—language will not be a barrier.

How is my child doing in school?

Infinite Campus gives you access to your child's attendance, grades, schedule, teachers, transportation, and fees. Parents/guardians receive an email with an activation key to create an account. For help, contact the school by phone, email, or visit us in person.

What supports are available to help my child with his assignments?

Students can get help from teachers before school or during the school day. The library is available as a quiet study space. Free tutoring is also provided at each school.

How can I get involved?

Parents can join a parent organization to stay involved. Start by attending the D214 Bilingual Parent Advisory Committee, which meets once a quarter. Contact: veronica.gott@d214.org

How can I support my child at home?

- Encourage reading in any language to build literacy skills.
- Set aside time daily for homework and review.
- Talk with your child about their school day and assignments.
- Stay in touch with teachers and attend school events.
- Provide a quiet space for studying and learning.
- Set up an email to receive school communication.

Why do I need an email address?

Most school communication goes out via email. This includes important updates, teacher messages, school events, and emergency alerts. Having an email also allows you to activate your Infinite Campus account to see your child's grades, schedule, and attendance. If you don't have an email address yet, we will support you in setting one up.

What Students May Do at School

Here are some things your child may experience during the school day:

- Have more than one teacher for different subjects (math, science, English, history, etc.)
- Move to different classrooms
- Learn in mixed-gender classes, boys and girls are taught together
- Have to wear a uniform for gym class, such as a T-shirt, shorts, and athletic shoes
- Eat lunch at school
- Work together in groups or with partners
- Be allowed to use cell phones during non-instructional times
- Raise their hand to ask questions or speak in class
- Have to be on time to every class
- Participate in sports, clubs, music, theater, or other extracurricular activities
